

# PIX PERFECT TIMING!

## Features:

### PIX - X'act Classical Synchronous Belts

- Trapezoidal tooth profile
- High efficiency due to positive engagement between belt teeth and pulley grooves
- No re-tensioning required
- Free from maintenance
- No high tension required

## Range:

each sleeve is 17.7" (450mm) wide

| Section | Pitch (mm) | Tooth Height 'B' (mm) | Belt Thickness 'C' (mm) |
|---------|------------|-----------------------|-------------------------|
| XL      | 5.080      | 1.27                  | 2.30                    |
| L       | 9.525      | 1.91                  | 3.60                    |
| H       | 12.700     | 2.29                  | 4.30                    |

### PIX - X'act HD Synchronous Belts

- Curvilinear tooth profile for improved stress distribution
- Reduced tooth jump due to deeper tooth design
- High efficiency due to positive engagement between belt teeth and the pulley grooves
- No re-tensioning required
- Free from maintenance
- Increased power transmission capacity
- No high tension required

| Section | Pitch (mm) | Tooth Height 'B' (mm) | Belt Thickness 'C' (mm) |
|---------|------------|-----------------------|-------------------------|
| 5M      | 5.00       | 2.06                  | 3.80                    |
| 8M      | 8.00       | 3.48                  | 6.00                    |
| 14M     | 14.00      | 6.25                  | 10.00                   |
