

**PIX Hydraulics  
only produce  
End-fittings**

**PIX IS A BELT  
MANUFACTURER**

# FACT or FICTION ?

**The PIX range only has Braided hose**

**Introducing - The PIX Multi-Spiral Hose**

**Now  
available  
in 6-wire up  
to 3" dia**

## Key Features & Benefits

- 1. State-of-the-art Rigid Mandrel Line**
  - a) 60 metre coil lengths from 1" to 3" diameter hose - Longest in the industry - reduction of wastage, suitability to applications requiring long length coils
  - b) High Flexibility and elimination of preformed shapes (Bend radius?)
- 2. Extensive testing of product to ensure high performance and exceptional reliability and safety.**
  - a) Tested on the dynamic Flex impulse machine
  - b) Tested to over 1,000,000 cycles
- 3. Validation with PIX designed and manufactured Interlock, Flange-type, and No-skive fittings to ensure complete compatibility**
- 4. New construction design to facilitate ease in internal skiving as well as lower Minimum Bend Radius**
  - a) Facilitate ease of safe assembly
  - b) Higher flexibility to ensure greater functionality in confined spaces
- 5. Extensive range of 4-wire and 6-wire products**
  - a) Ensures good coverage of a broad span of pressure ratings to suit various Mining, Off-shore, and various other Industrial applications.
  - b) Optimization of stock
- 6. Reputable third party certifications to ensure complete peace of mind**
- 7. High availability as complete range of products in stock in Europe.**
- 8. Spiral range complemented by an extensive range of Braided hose and end-fittings and other accessories to provide**

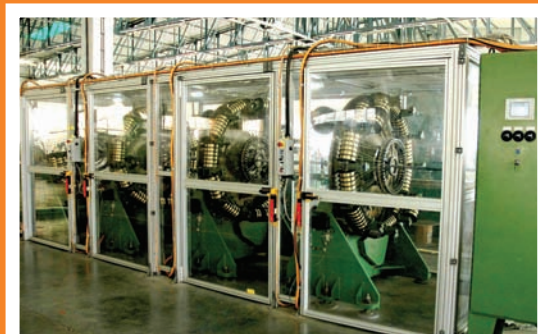

## Range

HI-PULSE 4SP	3/8" - 2"
HI-PULSE 4SH	3/8" - 1 1/4"
HI-PULSE 6SP	3/4" - 3"
IMPETUS - R12-280	3/8" - 2"
IMPETUS - R13-350	3/8" - 2"
IMPETUS - R15-420	3/8" - 2"
HYDROBLAST 6SP	3/8" - 1"
